

The Ely Standard articles give a detailed account of various aspects of local life during the Great War. It reports letters back from the front, lists casualties, mentions of Zeppelin raids, aircraft, conscientious objectors, German prisoners of war and local military hospitals. The paper also reports the heartbreak of Exemption Tribunal meetings where farmers plea to be allowed to keep workers on the land – these are particularly interesting, mentioning many names, and should be checked

This index covers stories relating to the war and its impact on the villages around Ely including Adelaide, Coveney, Downham, Haddenham, Littleport, Manea, Mepal, Oxlode, Prickwillow, Pymore, Soham, Stretham, Stuntney, Thetford, Wentworth, Wicken, Witcham & Witchford. Some Chatteris and March stories are also mentioned.

It does not cover many other aspects of 'normal' life that the paper reported These notes are not complete and there are inevitably mistakes. Please tell me those you notice.

There are files of the Ely Standard on microfilm at Ely Library and in the Cambridgeshire Collection in Cambridge Central Library, who also hold the original volumes.

Please make what use of these notes that you can. Please remember where they came from

Soldier labour for harvest, 27,000 soldiers allocated

Zeppelin raid on Cambridgeshire – 'this way to Zeppelin pits, admission 3d' said town constable at gate field – enormous queue – farmer's wife sat at table counting money & in centre top explosive bomb; pub closed as beer all drunk. Guided through trampled potato parch to field of oats & pit just deep enough for children to play hide & seek. 20 yards further on another. One cow struck by fragments of metal & needed vet. Had seen zeppelin before & had good warning but most went to bed. Half-hour after midnight heard faint buzz of engine, then incendiary on edge of ditch causing fire ... then two explosive bombs & two more incendiaries fell on meadow land. Airship came from SE hovered for few minutes, described a circle & made off NE. Station master showed in office an incendiary bomb, structure intact & little damaged – said saw airship from station platform – thin black pencil in starry sky, was much brighter than last Zeppelin & thinks improved silencers in engines as noise faint.

Felt quite helpless. Incendiary bombs each made big blaze. Just after bombs dropped a mist came up & saw northing more of airship

First refugees three young women, October 1914, under control organisation in St Mary's parish, stayed at house in Deacons Lane. By Dec 16 refugees & by January up to 27. Found work for able-bodied as 'guest' status impractical and all able-bodied became self-supporting. Children educated Kings School, Silver Street School, Needhams & Girls High School – 8 boys & 4 girls sent & language difficulties overcome. One boy became Head Boy at Needhams. Bu spring 1915 store unnecessary as Refugees manage own purchases, so close & make grants instead, weekly subscriptions given up. April 1915 St Mary's organisation ceased and refugees passed to committee. Mme Paternostre & son & daughter transferred from Palace to Mr Bowsher's home, Lynn Road & after five months went to Glasgow. During 1915 36 fresh refugees arrived, 39 left & gave up Silver Street house. 1916 last arrivals – 3 – and 9 departures. Mad. Hanssens & the Hertsens left 1917 to Stetchworth so moved Mme Vermocken from Bouchers rooms in High Street to Clare Villa but as rent went up moved again to house lent by Mr Bidwell.
